NICANOR L. GUINTO, PhD
Director, Research Services Office
Southern Luzon State University
Lucban, Quezon

Dear Dr. Guinto,

Greetings of Peace!

First of all, I would like to thank you and your staff for all the support you have been giving to us in the field of research. Now, I am submitting the list of our BEED students' action research titles for a review. The researchers are graduating students in June 2022.

I would greatly appreciate for your favorable response on this matter. Thank you very much and God bless!

Very truly yours,

AILEEN V. ELARCO, Ph.D.
Campus Director

BEED IV- Action Research Titles and Objectives

Alba, Vincent L.

Hernandez, Jhana joy M.

Pinon, Rosevel

“Utilizing Fuller’s Method to Improve the Oral Reading Performance of Grade 2 Pupils”

Objectives:

1. Assess the oral reading performance of the Grade 2 pupils before and after utilizing Fuller’s method.
2. Find out the significant difference in the oral reading performance of Grade 2 pupils before and after utilizing Fuller’s method.

Agaton, Albert A.

De La Crus, Jeann J.

“Parental Involvement in Learning Arts among Grade 3 Pupils Amidst Pandemic”

Objectives:

1. Determine the parental involvement in learning Arts among the Grade 3 pupils amidst pandemic.
2. Develop an intervention material to help the parents in assisting their child’s learning of Arts.

Badiana, Raul E. Jr

Fabio, Princess Angelica P.

“Understanding Vocabulary Words in Filipino Course among the 1st Year Bachelor of Elementary Education Students

Objectives:

1. Assess the understanding of vocabulary words in Filipino course among the 1st year Bachelor of Elementary Education students.
2. Create a module packet in learning the Filipino course’s vocabulary words.

Bermillo, Jose Jr.

Rogel, Amir Kevin Rooy L.

“Problems Encountered by the Parents in Children’s Filipino Learning through Module during Pandemic”

Objectives:

1. Determine the problems encountered by the parents in children’s Filipino learning through module during pandemic.
2. Develop a booklet for parents to serve as a guide in assisting their children’s Filipino learning.

De Luna, Marlon D.

De Real, Jessa P.

“The Parental Involvement in Learning Mathematics among the Grade 6 Pupils Amid Pandemic”

Objectives:

1. Determine the parental involvement in learning Mathematics among the Grade 6 Pupils amid pandemic.
2. Develop an intervention material to help the parents assist their child in learning Mathematics.

De Luna, Mark G.

Silva, Anica

“The Problems of Grade 5 Teachers in Teaching Science Vocabulary

Objectives:

1. Determine the problems of Grade 5 teachers in teaching science vocabulary.
2. Develop an intervention material to help the Grade 5 teachers in teaching science vocabulary.

Ferrancullo, Dexter M.

Corrales, Anna May

“Parental Involvement in Third Grade Mathematics Amidst Pandemic”

Objectives:

1. Determine the parental Involvement in Third Grade Mathematics amidst pandemic.
2. Develop an intervention material to help the parents in assisting their child’s learning of Mathematics.

Mercadal, Collin

Hernandez, Nathalie Grace

“Parental Practices in Helping the Child Learn Araling Panlipunan in Times of COVID”

Objectives:

1. Determine the parental practices in helping the child learn Araling Panlipunan in times of covid.
2. Develop an intervention material to help the parents in assisting their child’s learning of Araling Panlipunan.

Verdera, Dejeuner G.

Zamora, Charlene

“Online Mathematics Learning: A Study on Learners’ Interest”

Objectives:

1. Determine the interest of the Grade Two pupils in online Mathematics Learning.

2. Develop an intervention material to help increase the interest of Grade Two pupils in online Mathematics Learning.

Agaton, Angeline

Largo, Emmalyn

“Parents’ Discipline Problems in the Use of Gadgets among the Children”

Objectives:

1. Determine the parents’ discipline problems in the use of gadgets among the children.
2. Develop an intervention material to help the parents in guiding the children’s use of gadgets.

Abelida, Vhanessa May

Zulueta, Jessa May

“The Problems Encountered by the Bachelor of Elementary Education Students in Understanding Content of Teaching Mathematics Course”

Objectives:

1. Determine the problems encountered by the Bachelor of Elementary Education students in understanding content of Teaching Mathematics course.
2. Develop an interactive game to help the Bachelor of Elementary Education students understand content of Teaching Mathematics course.

Delgado, Norelyn P.

Tagle, Reymalyn A.

“The Problems of Grade Four Teachers in Science Vocabulary Instruction

Objectives:

1. Determine the problems of Grade Four Teachers in Science vocabulary instruction.
2. Develop an intervention material to help the Grade Four teachers in Science vocabulary instruction.

Enriquez, Janine Alexis F.

Rivera, Ruffa Mhay

“Enhancing the Reading Comprehension of Grade 2 Pupils”

Objectives:

1. Assess the reading comprehension of the Grade 2 pupils before and after utilizing the intervention material.
2. Determine the acceptability of the intervention material.

Estigoy, Carina R.

Fortaleza, Haidee B.

“Manifestations of Unintentional Procrastination among the Bachelor of Elementary Education Students”

Objectives:

1. Determine the manifestations of unintentional procrastination among the Bachelor of Elementary Education students.
2. Develop an intervention material to reduce unintentional procrastination.

Nocus, Hannah Ivy

Yap, Miracle Joy

“Utilization of Video Discussion: An Asynchronous Way of Teaching Physical Education”

Objectives:

1. Determine the perception of the respondents on the utilization of video discussion as an asynchronous way of teaching Physical Education.
2. Ascertain the acceptability of the intervention material.
3. Figure out if there is a significant difference on the perception of the respondents on the video discussion as an asynchronous way of teaching Physical Education before and after utilizing the intervention material.

Platino, Princess Danica

Ufana, Christia Fernanda M.

“Challenges Encountered by Teacher Education Students in Conducting an Action Research”

Objectives:

1. Determine the challenges encountered by Teacher Education students in conducting an action research.
2. Develop an action research training design based on the results of the study.

Zara, Marian

Tesalona, Rina

“Parental Involvement in Improving the English Reading Comprehension of Grade 3 Pupils”

Objectives:

1. Determine the interest level on the parents in improving the English Reading comprehension of their child.
2. Ascertain the support of parents in improving their child’s reading comprehension skills.
